

HOSPITAL SISTERS
MISSION OUTREACH

BIOMEDICAL EQUIPMENT DONATION GUIDE

Directions for Equipment Donated

- Must provide cords, manuals, cables and accessories that came with the equipment
- Communicate with the Mission Outreach Engineer prior to a donation being made to reduce time gaps
- Share current status, service history and system credentials for EACH piece of equipment donated
- Inclusion of the Mission Outreach Biomedical Engineer in any manufacturer training offered for any donated piece of equipment

Acceptable Equipment

(including but are not limited to the following)

- Anesthesia machines
- C-arm Imaging Systems
- Centrifuges
